

We refer to your email below.

While live entertainment is not allowed in general within Kampong Glam Conservation Area, we are prepared to consider certain kinds of ancillary live entertainment which could include cultural or more artistic performances that contribute to the character of the area.

If this is what you have in mind, we welcome you to submit a change of use application with details of your tenant's proposal for our consideration. The details should include the restaurant's track record (if any), complete food and beverage menu, detailed layout plan, and type of entertainment. The area for live entertainment should be clearly indicated in the layout plan.

Thank you.
